Re: Andalex Resources, Inc., Wildcat Loadout, C/007/033
Request For Extension, Task ID #2410

Dear Ms. Grubaugh-Littig and Mr. Hedberg:

I have recently met with Priscilla Burton and Pete Hess and presented a conceptual plan to address the Division Order, Design Drawings and Specifications, Task ID #2410, also known as the wind blown coal-fines issue at the Wildcat Loadout (C/007/033). We have previously been waiting for the BLM to issue us an expanded ROW for the site which we had expected by the end of January. The ROW is ready to issue but the BLM needs some additional time to clear up a legal description error. Now that we have concurrence from the DOGM staff on a conceptual plan to remedy the Division Order, and the BLM is in the final stages of issuing the needed ROW extension, we hereby request a 30-day extension to allow sufficient time to prepare the submittal and acquire the ROW extension. Your consideration of this matter is greatly appreciated.

If you have questions, please contact me at (435) 888-4017.

Sincerely,

David Shaver
Resident Agent
